

Declaration of Cooperation

Between

Aircraft Maintenance College 66

Horsterweg 13 NL-6199AC Maastricht-Airport The Netherlands

And

Rajamangala University of Technology Isan

744 Suranarai Road, Muang, Nakhon Ratchasima 30000, Thailand

Rationale

The Aviation Competence Centre is a newly established approved Maintenance Training Organization (part-147 approved by the European Aviation Safety Agency, EASA).

The Aircraft Maintenance College 66 wants to establish partnerships to effective use of the training material and knowledge which was developed during the establishment of the Aircraft Maintenance College 66.

The Aircraft Maintenance College 66 is willing to use the Part-147 approval (the official certificate of the European Aviation Safety Agency, EASA) to assist other organizations. Of course the same uniform quality must be assured

Aircraft Maintenance College 66 Maastricht, EUREGIO (The Netherlands - Germany), herewith declare that the cooperation with
will be highly appreciated.

Rajamangala University of Technology Isan

744 Suranarai Road, Muang, Nakhon Ratchasima 30000, Thailand

Objectives

The Laemthong Technology college

may benefit from the cooperation with the Aircraft Maintenance College 66, Maastricht-Airport, the Netherlands, in various areas as follows:

- Planning and implementation of initial and further education and training programs in the area of aviation technology and maintenance
- Exchange of experts, lecturers/instructors (staff)
- Cooperation in research projects
- Planning and development of specialized Training Centers in any field of Aviation
- Consulting services

More specifically, modules in those areas might include:

- Use of the European approved Maintenance Training Approval of the Aircraft Maintenance College 66 (or the EASA Part-147 approval).
- Specific management knowledge in establishing EASA approved training programs
